general comments

The Broadblue 425 is the latest long range family cruiser with Broadblue qualities of easy sail handling, build quality and effortless performance. This latest Broadblue design offers: self tacking headsail, sail station with twin winches, electric headsail furling, twin headsails for wide range of sailing conditions, raised cockpit to ensure all crew and passengers have a view forward under sail and more "sociable" cockpit space, various internal layout options and hand built interior for easy customization to suit each owner. Cutaway transom for easy boarding from dinghy, large galley and forward facing chart table, large glass sunroof panel to saloon for improved light. Available in electric or diesel versions. Full range of options and extras to chose and define with cat sale. The ideal long-range-cruiser for safe and single-hand performance sailing. Lots of up-grades to the previous design range and a most appealing elegant design, that offers best polish boatbuilding in combination with British style and engineering. Sound, safe and reliable construction at a fair price. N°1&2 to be launched for the 2024 sailing-season. Sea-trial-appointments start in May 2024 with cat sale.
