**Allgemeiner Kommentar commentaires généraux  
general comments**

This sound and well-equipped fresh Broadblue 346 catamaran offers a wide range of sailing abilities. This well performing Darren Newton (Dazcat) design, is A-classified for Ocean passages as well as to conquer inner coastal waterways and even to passage through the French canals to the Mediterranean. The genius interior-design offers full 2 m headroom throughout the boat. This model is easily single-hand capable and most recommended for small crews and for families. She sails very well for her size as a result of the Dazcat design heritage and has proven herself many times, outperforming many larger cruising monohulls and catamarans. The innovative concept of the "sailing station" is the key to easy operation. Here, all the working sheets and halyards are grouped together in a single, forward-facing position next to the helm station. This means that the 346 can be easily operated by one person, including reefing the mainsail and headsail. The first and current German owner-couple, sailed their dream-cat just three seasons in the Baltic-sea and decided now to retire from active sailing. The cat is berthed in the Baltic, fully equipped and ready to be either kept on the 2024 paid berth or to sail anywhere in safety and comfort.
