Allgemeiner Kommentar **commentaires généraux**
general comments

The Knysna 500SE, designed by renowned architect Angelo Lavranos, is a state-of-the-art bluewater catamaran built in Knysna, South Africa. With a 2023 build, she offers the latest technology and exceptional features. The 3-cabin version offers three double berths, with spacious cabins providing ample room and storage. The catamaran is equipped with a fully fitted galley, spacious bathrooms, and an open salon with direct access to the cockpit – perfect for relaxing moments on the water. Noteworthy is the versatile equipment, ideal for bluewater cruising: powerful solar panels, generator, watermaker, Garmin navigation system, high-quality sails from Northsails, and a dinghy. She also features a large refrigerator, air conditioning, and generous tank capacities, ensuring comfort and convenience on long journeys. The Knysna 500SE offers excellent sailing performance, stability, and safety. She is the perfect choice for long-distance cruising, combining speed, comfort, and thoughtful equipment for discerning bluewater sailors. This owner dedicated three cabin version has been fully equipped for single-handed ocean cruises in safety with full authority at sea. The Swiss owner couple sailed 15.000 miles in the Indian ocean and decided to offer their dream catamaran to be handed over to the next proud owners now. The asking price is about 20% below a new Knysna 500SE.
