Beschreibung

There is absolutely nothing ordinary about ARCHARNE! A rugged and dependable motor yacht for short handed explorers, she has a comfortable interior and simplicity is her watchword. She runs on fumes and really goes to prove that special yachts can have a successful second life if the makeover is properly managed. She is also very accessible in price terms and we are excited about the possibilities that she offers.

The vessel was inspired by Ocean voyager trademark: reliability, safety, simplicity and design innovation.
