System: 2 x Lewmar 54a EST electric halyard winches
SAIL NOTES• Hydraulic backstay• Tensioner• Lazy
bag• Self tacking jib

Beschreibung

The 52-foot (15.86m) Hanse 545 yacht AURORE is wonderful to sail aboard. She is one of the famous German builder's most popular models due to her ease of handling, great sailing capabilities and large interior volume. AURORE's threedouble-cabin layout makes her an ideal family cruiser. She is easy to operate thanks to her electric winches, retractable bow thruster and Simrad electronic; she can easily be operated shorthanded. Flush decks, a large cockpit, a tender garage
enjoy there is ample space on deck for enjoying life at sea. The yacht also
features a hydraulic drop-down bathing platform/ swim platform for guests to enjoy. For those looking to reel in the big one, the yacht's fishing gear certainly will come in handy. AURORE's interior volume and high ceilings give the illusion that you're aboard a much larger yacht. Her three-cabin layout is comfortable; the
owner's cabin is located forward, and an L-shaped galley is to port. She is
powered by a Volvo D3-110hp shaft drive engine as well as a 6kw genset, to run the air conditioning and watermaker
when out on anchor.
