Beschreibung

This cat has been designed for safe and fast ocean passages, offering narrow hulls and light structure for top performance, daggerboards for efficiency and good volume inside for comfort. Lots of equipment, ready to go! Built in 2000, this wonderful 50 Light version is really rare on the market. With professionally added wave-piercer-bows, she has the 55 Light performance and security but without mooring place drawback. She also benefits from several refits and has just 1500h of running on the engines. On Gérard Danson plans, she is the most recommended blue water cruising design of the OUTREMER range. The 4 cabins + 2 bathrooms layout offers standard accommodations with all the comfort and equipment for a quiet autonomy at sea. The Austrian owner is a most ambitious and performance orientated Multihull sailor, who keeps his cat in best technical condition and added several performance up-grades during his ownership. For two Covid-19 years, the cat was stored ashore on the US-East coast and just sailed back across the Atlantic in June 2022. The trip took two weeks with solid 200 nautical miles + Etmals. Back in EU-waters with the Austrian owner-couple aboard, This rare OUTREMER 50 Light design is available for viewings and 4sale with cat sale.
