Blackwater tank extraction: Below water line
Wheel steering: cable steering

For the serious long distance cruiser that is looking for a safe and easy to handle Ketch to cross the 7 seas. A very sturdy and solidly built one-off ketch with all structural material at least 2 grades above standard requirements. No expense was spared on the quality of the boat. The hull is based on the Bruce Roberts designed BR 493 while the deck and superstructure design was inspired by Nautor Swan with the aft and midship cockpits with entrances to below. The boat is very well equipped and maintained and in excellent condition!
