## Περιγραφή

The boat is professionally built in Tønsberg by the boat building formerly known as \"Berg Olsen Båbyggerei\".

Drawings were prepared in collaboration with Amble

& Stokke. Yanmar Marine, Vestfold Elektro-Diesel and Huseklepp

Modellverksted have been involved in the production of the boat. Hull in GRP and epoxy for optimal combination of strong hull and light weight. Sandwich construction with waterproof divynylcells. Superstructure in polyester and sandwich with double foamed roof for optimal insulation. Roof is extremely solid.

\"T1\" has only one owner since it was new 2015, and the technical value of this motor yacht far exceeds the asking price.

Registered in the Norwegian Ship Register and measured accordingly. This pleasant and inviting 2015 model 56 feet motor yacht is unique. Now looking for new owners.
