Beschreibung

Toni Punzio, a renowned catamaran manufacturer in Italy, is known for his limited series of special boats. He recently founded the Delta Catamarans shipyard in Sicily with his wife, architect Ilenia Indago, who is responsible for the interior design. These boats stand out not only for their performance but also for their extraordinary beauty, the result of this unique collaboration. Delta Catamarans has become a symbol of Italian know-how and elegance in catamaran building. This F40-XT design impresses with clean determined lines. Its scimitar-like bow shapes and monolithic hulls, interrupted only by continuous glazing, give it a unique presence. The deckhouse, with its glazed hexagons, and the distinctive cuts at the stern add to its unmistakable personality. Despite its 40-foot size, the F40-XT offers generous space on board, thanks to its wide hulls and a generous stern area. The high build quality allows good performance in terms of speed, stability and comfort. This catamaran embodies the best of Italian know-how and offers an outstanding experience for sailors who appreciate both performance and aesthetics. The first and current German owner has decided with a heavy heart to sell, after for personal reasons the sailing plans can no longer be realized.
