Details

Baujahr: 2016
Erstwasserung: 0
Länge: 13,50 m

Breite: 4,20 m m
Tiefgang: m
Motortyp: Volvo Penta D3-220
Motoranzahl: 2
Kraftstoffart: diesel
PS/kW: 220 / 162
Betriebsstunden: 450
Kraftstoff: 1700 l
WC/Nasszelle: 0

Ausstattungen

Beschreibung

Unique Opportunity: Overblue 44, the nautical UFO!

A floating second home? Not just that, as it is approved in category B, you can easily set sail for Corsica...
This 13.90-meter hull motor catamaran, 15 meters with the aft platform, with a width equivalent to that of a monohull, 4.20 meters wide, offers extraordinary habitability, equivalent to that of a 60-foot monohull. It was one of the shipyard's goals to simplify the issue of marina berths. Designed on one level (with a very large flybridge).
A new style of living on the water, with a double royal and private suite on the water worthy of a much larger cruise ship.

If you have any questions or would like to get a closer look at this magnificent boat, feel free to contact us:

The boat's navigation program is coastal cruising with the possibility of offshore navigation, such as a crossing between France and Corsica.
It is aimed at buyers who are primarily looking for maximum habitability and comfort (similar to a 50/55-foot boat, but in a smaller vessel), with a reasonable budget and less maintenance.

It has a large autonomy and consumes very little fuel.

It is a very clever boat.
The front of the boat is quite unique, but it houses a large double master cabin with its own bathroom, balcony, and large bay window: to enjoy it, simply lift the hood to access a vast front balcony!.
There is another double cabin, a large salon with a convertible double bed with a dining area and kitchen, as well as a bathroom per cabin.
The finishes and samples are of very high quality, the interior volume is impressive, and the design was carried out by a renowned Italian designer.

The flybridge is also very large since it has the same surface area as the volume above the waterline. This facilitates maneuvers, especially in the harbor. It is accessed by steps, not a ladder, for more comfort and safety.
It features a dining area, a kitchen with all the equipment (fridge, sink with hot water, grill...). Next is a space dedicated to sunbathing and relaxation with the helm station.

This boat is in category B (Offshore): these boats are designed for journeys beyond coastal waters where winds can reach force 8 — equivalent to 40 knots with gusts of about 52 knots — and significant wave heights of 4 meters, with a maximum of 8 meters.
