The Trintella 49A is a very well built Dutch aluminum yacht, designed by Van de Stadt. The current owner has had the hull and deck superstructure completely refitted, painted and a new teak deck. A lot has also been done on the

technology. The mast & boom have been repainted and new sails installed. In short, a super beautiful yacht where more beautiful and long sailing can be enjoyed. She is now in Sweden for a while and will return to the Netherlands in the spring.
