Beschreibung

The Dragonfly 28 Sport is a fast cruiser for the more experienced sailor. A high performing cruising trimaran, that is stable enough to have guests onboard, there is plenty of space on the trampolines whilst sailing. Her accommodation is basic but surprisingly spacious. Stowage space is somewhat limited in a boat of this size, but ideal to avoid overloading. Light, bulky objects like fenders, empty jerry cans or similar can be stowed away in the floats, each of which has an access hatch. She is easy to sail short-handed and handles well in both light and strong winds. Her folding system is convenient and easy to use, 2 people can lower and raise the mast without the use of a crane. This N° 101 of the series offers an over-complete full equipment incl. Lewmar foldable 2KW bow thruster. This DF28 Sport was perfectly maintained and stored in a dedicated shed to stay in ready to race and as new condition by the busy owner, who sailed her just, 3800nm. Not used for 3 years, kept in a heated hall, the owner decided now to offer this DF28 Sport in absolute mint condition for sale. Despite the low utilization and the very good condition, the ship will receive a complete refit in spring 2024. Available for viewings and for sale on appointment, ready to be handed over already on the licensed road trailer on the Baltic-sea in Northern Germany.
