Περιγραφή

The Tofinou 9.7, what a beauty!

The Tofinou 9.7 is the latest in the Tofinou range. With this new model, the Latitude 46 shipyard is developing a "neoclassical" style through the work of architect Michele Molino and in-house design studio. With a deck plan inspired by Peugeot Design and adaptable to a solo or crewed sailing program, the Tofinou 9.7 has an ergonomic and safe cockpit and spacious bathing platform. Even though the Tofinou foundations have been preserved with recognizable mahogany strakes, characteristic of the builder, this model marks a new dynamic thanks to the use of materials, with stainless steel parts, chrome and a delphiniere made of carbon. To adapt the boat to any depth scenario, we propose three different keel systems: lifting, swinging or fixed keel; each coupled with the relative rudder system: single or double. The Tofinou 9 is equipped with a 15 HP Inboard engine with access from the cabin. Are you interested in a new Tofinou 9.7? Then contact 1 of our advisors at 0514-569123 or broker@sailingworld.nl.
