Descrizione

Fantastic trawler American Tug 41. Please ask for all details.

The American Tug 41 is a very well thought out trawler, built on the US East Coast for the rough waters in the Gulf of Alaska. The lines are based on the salmon fishing trawlers and the hulls are known for their solidity and rough water capability.

This European version with a Volvo Penta engine was only used on the Baltic Sea and is in excellent condition. Available from mid-July. 2 very comfortable double cabins each with a separate bathroom with toilet and shower.
