Operating hours: 550

Fresh water tank: 400 l

Holding tank: 300 l

Fuel: 950 l

Cabins: 2

Bunks: 4

Head room/wet lockers: 2

Equipment

Description

The GALEON has a total length of 13.04 meters and features an extended swim platform. It boasts real teak wood in the interior, on the swim platform, and on all walkways. The interior is finished with high-gloss mahogany and Alcantara. There is a large seating area, sunbathing area, and helm station above (including a refrigerator above), as well as a salon below with white leather, a 32" Smart TV with satellite connection, a kitchen with a stove and microwave, and a large compressor refrigerator with a freezer compartment. The salon leads to the owner's cabin with an en-suite bathroom, featuring a bed with custom-made toppers and sheets which can be provided. On the other side is the guest cabin, also with its own bathroom. Ample storage is available throughout, including in the aft garage.

Technical Specifications:

- 2x D4 300 HP Diesel engines, 550 operational hours; service recently completed, all service documentation available.
- Contact with the master technician from the workshop that provides service can be established at any time.
- Electric roof that can open the entire width of the boat.
- New Axiom 12 touch navigation system with Lighthouse.
- New Raymarine Doppler radar system.
- New windshield wipers.
- Joystick and remote control via Yachtcontrol for easy maneuvering.
- Bow and stern thrusters; stern thruster replaced in 2024.
- Automatic trim tab system from Volvo.
- Electric anchor windlass with adequately long chain.
- Aft garage with roller system that can comfortably fit a 2.50m dinghy (or bicycles, grill, and other items you wish to bring).
- The boat is equipped with a special wrap.
- 3 AGM gel batteries were renewed in winter 2021.
- AIS from ICOM for sending and receiving.
- VHF radio system for sending and receiving.
- Motor-controlled searchlight with remote control.
- Self-adjusting satellite system.
- Hot water boiler.
- 2 Webasto diesel heaters.
- 950-liter fuel tank – currently fully filled.
- 400-liter drinking water tank in stainless steel.
- 3KW inverter from Victron.
- The boat is categorized as B and has mostly been used in inland/freshwater.
- Mosquito nets for the windows from GALEON.
- Approval for 10 people.
- Year of manufacture: 2014.

The boat is in very good condition, and cruising is a pleasure at speeds of easily 35 knots with very economical fuel consumption! A transfer of the berth is possible—fully paid for this season. Please inquire only if you have serious interest and the necessary liquidity. This boat is also excellently suited for the Berlin area/Bodensee due to its low height.

Over the winter, regular service was performed by the professional workshop. This year, the bellows of the Z-drives were replaced, so you can get started immediately.
