Περιγραφή

Immacculate Nimbus 365 Coupe 2x Volvo Penta D4-225 EVC 2012 for sale in Sweden!

Offer price:
279.000 EUR (VAT paid)

Description:
cription:Are you looking for a well-maintained and well-equipped Nordic cabin boat in the absolute premium class in the size 35-40 feet in the price class 250.000 - 300.000 EUR? Don't miss the opportunity to buy this extremely well-maintained Nimbus 365 Coupe with twin Volvo Penta D4-225 EVC diesels with shaft drive and low operating hours that is heavily upgraded and exemplary well-serviced and maintained!

Thanks to the boat's twin Volvo Penta D4 engines with shaft drive, this Nimbus 365 Coupe offers a stable optimal ride in the water, unbeatable maneuvering characteristics and the added security that the boat can still be driven and maneuvered if an unexpected problem with the operation of one of the engines should arise while you are out with the boat.

Several nice pluses with this Nimbus 365 Coupe which has an impressive high finish thanks to new 3-step polishing/waxing of the entire boat and new treatment of all teak decks every year are its bow and stern thrusters which make the boat very easy to handle when maneuvering the boat in port and in tougher weather conditions with strong winds. This is a boat for you as a skipper who always wants to feel maximum safety when you and your party use the boat.

The boat's design and layout are optimal for our Nordic and central european weather conditions. The boat's sidewalk design where the starboard side deck is the widest, deepest and safest in the class gives you and your crew a nice feeling of security when it's time to set out and to berth. The large foredeck with a large inviting sunbed for 4 people, cup holders and grab rails is a lovely place for enjoyment for you and your party during the warm and sunny days of the season. The recessed sliding door in the boat's well-designed wheelhouse out to the SB side deck means that you can quickly and easily handle the boat yourself at all times. The large, deep integrated bathing platform with fold-down bathing ladder, double drained storage compartments & fender holders offers space for a rib of around 3 meters.

The Nimbus 365 Coupe is built for those who want to enjoy boating from early pre-season to late post-season and advocates social activities, comfortable accommodation, easy handling and long-distance trips. The hull, which is a displacement hull, i.e. the boat can be driven at all speeds up to maximum speed, together with the fuel-efficient Volvo Penta D4-225 diesels and its shaft drive, gives the boat impressively low fuel consumption even at higher speeds.

The layout of the boat is perfect for the family or couple who want to be able to use both the aft deck and the salon for socializing with guests. On the aft deck, which offers an L-shaped sofa with a retractable rear section (towards the inside of the transom) with a large folding teak table, 5 people can sit comfortably at the table. When placing 3 folding chairs next to the table, a full 8 people can sit at the table and socialize.

The boat's very inviting, bright and cozy salon, which has recessed LED decorative lighting, which further enhances the atmosphere, is the place to socialize when the outside temperature drops. The large electrically openable sun hatches in dark-tinted glass for opening the salon and wheelhouse during the warm and sunny days of the season are perfectly placed in the cabin ceiling. In the U-shaped sofa group right above the boat's large recessed, well-equipped kitchen (with well-thought-out solutions for waste and pantry) that you find directly to starboard after entering the salon from the aft deck, 5 people can sit comfortably around a laid table. The teak folding table is also a perfect cocktail table with the flap part folded up. The front part of the U-sofa can easily be flipped over to a forward-facing passenger sofa for 2 people and the sofa group can also be folded down to an extra comfortable double bed when there are several of you who will be sleeping on board.

In the front saloon/wheelhouse there is an opening side window and a recessed pop-up Smart TV on the port side. In the wheelhouse, from where you as the skipper have an optimal panoramic view when you are manoeuvring the boat, there is a simple captain's seat with a folding front seat and a much appreciated captain's door with a high height out to the port side deck so that you as the skipper can quickly and easily move between the wheelhouse and deck when it is time to set out or berth with the boat.

After descending to the boat's lower deck via 2 steps with grab rails, you will find the boat's guest cabin with a large double bed, 2-seater sofa and plenty of storage and shelving and opening side windows amidships on the port side. Midway on the SB side is the boat's large bathroom with electric flush toilet with fresh water with separate water tank and large separate shower cabin with high standing height which also has its own entrance from the boat's large, cozy Master Cabin in the foredeck with large double bed with extra mattress, indirect LED decorative lighting, plenty of storage and shelving, opening side windows and opening roof hatch with blackout curtain & mosquito net.

The engine room in the Nimbus 365 Coupe is easy to access via the 2 large engine room hatches on the aft deck. All installations in the very well-planned engine room are easily accessible.

The boat, which is fully ready for the season, is shown in the water north of Gothenburg and is sold with a guarantee that the boat, its drivelines and all significant systems are fully functional at the time of the boat's sale & delivery. Delivery of the boat throughout Europe is offered.

Maintenance:
The boat is extremely well maintained & engine serviced every year since new. Always fully winterized after season & winter stored indoors in a heated hall. Shafts, rudders & propellers newly treated with PROPSPEED in spring 2025 - No more growth on the boat's drivelines & rudders! New treatment of all teak decks (sanding + oiling 2-3 layers with Golden Teak), new polishing & waxing of the entire boat (3-step treatment) & new bottom paint Mille NTC (color gray for salted waters) incl. new external zinc anodes in spring 2025. New engine service (change engine oil, oil filter, fuel filter, zinc anodes engines & impellers) incl. service of gear boxes in spring 2025. Injectors for both engines changed to new injectors in 2024. Previous engine service incl. service of gearboxes & replacement of heat exchanger, charge air cooler, crankcase ventilation filter, impeller & zinc anodes on both engines in 2023. Replacement of hull penetrations 2023. Previous polishing & waxing (3-step treatment) 2024, 2023, 2022 & 2021.

Specification:
Year: 2012
Origin: Sweden
Sold new: Germany
CE-class: B/max 8 pers
Colour: White
Interiour: Mahogny
Earlier owners: 4
Length: 11.56m
Width: 3.50m
Depth: 1.14m
