Beskrivelse

Very impressive Cranchi 47 HT 2007 Volvo Penta D9-575 EVC shaftdrive for sale in Sweden!

Offer price:
213.000 EUR (VAT paid)

Description:

Are you looking for a well-maintained 45-50 feet hardtop in premium quality with modern powerful Volvo Penta diesels with shaft drive in the price range of around 200.000 EUR? Don't miss out on experiencing this very affordable Italian Cranchi 47 HT with low running hours that has just been restored, modernized, upgraded, overhauled and newly serviced for almost 50,000 EUR!

What distinguishes this large floating summer house with high comfort and convenience is its large electrically opening garage in the stern with electric winch and plenty of space for a rib or jet ski, its large sun deck with comfortable sun cushions with raised headrests in the stern, its wide side deck and its large inviting foredeck with sun beds with fold-down backrests, 24v refrigerator and speaker system. In front in the bow which even has a deck shower with hot and cold water under the anchor hatch, the sturdy bowsprit with teak steps and removable bow ladder as well as the open pulpit with grab rails make it very easy to get on and off the boat.

In the bright, well-protected cockpit of the Cranchi 47 HT, which is optimized for fun and socializing and can be opened at the touch of a button via the large electrically opening glass roof hatch, there is a large U-shaped sofa group with a height-adjustable and extendable teak table and in front a well-equipped wet bar with electric grill, sink with hot and cold water, refrigerator, storage cabinet and plenty of storage space for several bottles of champagne. In the front of the wheelhouse, from where you as the skipper have a great view out when you maneuver the boat, there are triple captain's seats plus an extra rear-facing seat on the port side.

Down in the boat's large, bright salon with impressive headroom, there is an inviting U-shaped sofa group for 5 people and a large, fully equipped kitchen with a large refrigerator and separate freezer. The entrance to the boat's Mid cabin with double single beds, a 1-seater sofa and plenty of storage is directly to the left after descending to the salon. From the Mid cabin there is also a private entrance to the boat's guest toilet with a vacuum flushing toilet and shower. The toilet can also be accessed from the salon. In the bow there is the boat's large, bright Master cabin with a large double bed, plenty of storage and a private bathroom with a vacuum flushing toilet and shower cabin.

Another plus with the Cranchi 47 HT, which is a boat for those who want to be able to enjoy the blue to the fullest with family and friends during the warm, sunny days of summer but also during the pre- and post-season thanks to the boat's well-protected built-in cockpit, is its well-planned engine and technical rooms, which are very easily accessible via the large dinghy garage in the stern.

The boat shown in Gothenburg is sold launched and fully ready for the season with a guarantee that its drivelines and all significant systems are functional at the time of the boat's sale and delivery. Export and delivery of the boat within and outside Europe is offered.
