NIMBUS 42 NOVA VOLVO PENTA D6-370 EVC 2009 FOR SALE IN SWEDEN

Price:

314.900 EUR (VAT paid)

Description:

Are you looking for the perfect floating summer house in the form of a Nordic cabin boat in the absolute premium class in size 40 – 45 feet and have a budget of around 300.000 EUR? Don't miss this very beautiful, well-maintained and heavily upgraded Swedish Nimbus 42 Nova with the big, strong Volvo Penta D6-370 EVC engines which, among other things, offers double lockable captain's doors out to port - and starboard wide side decks from the wheelhouse, a large inviting open aft deck with double removable L-shaped sofas that can easily be closed with the boat's large new complete aft canopy, a large storage room/tech room under the canopy on entry to aft deck from the big integrated bathing platform, a large inviting foredeck with a large comfortable sun bed and bench in front.

The interior of this Nimbus 42 Nova, which has complete new durable Niroxx upholstery in the salon and wheelhouse, is genuine and extremely well planned with 3 closed spacious double sleeping cabins, 2 toilets and a large full galley

as well as a embeddable dining furniture with folding table for 4 people in the salon directly adjacent to the boat's aft deck. The double solid lockable cabin doors really opens up the cabin to the aft cockpit so you will have quick access to the galley when you are in the cockpit, which is a lovely socializing place during the warm sunny days of summer!

The Nimbus 42 Nova is a steady and robust "offshore" cruiser that makes its way in all weathers. The boat is well insulated and is perfect for those of you who want to live really comfortably on board and extend the boating season to the maximum. The boat's diesel heater has exhausts in all rooms including the toilets. in the bathroom directly connected to the boat's large luxurious Master cabin in the bow there is a separate shower cubicle with a bench so you can shower comfortably on board.

In the boat's wheelhouse, 4 people can sit comfortably and socialize during the journey, this as the front part of the saloon's dining group can easily be flipped forward so that a forward-facing 2-seat passenger sofa is created. From the driver's seat, you as the skipper have a fantastic view when you maneuver the boat and thanks to the double captain's doors out to the boat's side decks, which also have openings in the grab rails just outside the doors, it is quick and easy for you as the skipper to launch from the pier and dock the boat when you arrive in port. Since the boat has powerful bow- and stern propellers that you can easily control with a remote control, you can always maneuver the boat safely in port, regardless of the weather and wind.

This very impressive Nimbus 42 Nova with bowsprit with fold-down bow ladder and open pulpit with grab rail in the bow, is very well equipped and upgraded for a big total amount of money with new aft canopy, new sun cushion with raised headrest on the front deck, new upholstery in Niroxx in the salon and wheelhouse, 2x111W solar panels (keeps the consumer battery bank in the boat loaded when you are out at sea), powerful bow- and stern thrusters, electric windlasses with stainless anchors both in the bow and in the stern, defroster/underfloor heating with plenty of exhausts under the windshield in the wheelhouse and also by the aft cabin windows, 5kW diesel heating system with exhausts in all interior rooms with toilets included, new Shipcontroller remote steering system with increased speed & digital engine data functions that controls the engines, the bow- & stern thrusters, both electrical windlasses, the autopilot and the horn, new GPS-plotter/multiscreen Raymarine Axiom 12" with sonar/fishfinder, new radar Raymarine Quantum 18" Wired & WiFi, new autopilot Raymarine, new AIS transmitter/receiver, new soundsystem Fusion 770 bluetooth with Fusion 8,8" speakers in cockpit and Bose speakers plus SUB in the salon and underwater lightning e.t.c.

The boat which is very well maintained and has only had 3 owners since new (all pedantic) is available for viewing indoors in temperated storage hall in the Gothenburg area on the Swedish westcoast and is sold turn-key ready with guarantee that its drivelines and all significant systems are functional at the time of the boat's sale and delivery. Export and delivery of the boat within and outside Europe is offered. Ask us for a quote on transporting the boat to your home marina.

Maintenance:

The boat is serviced and maintained annually and always winter-preserved and stored indoors in temparated hall over the winter months. New polish of the whole boat & new antifouling with new external zincs in 2025. Last engine service with replacement of engine oil, all filters & impellers plus service of the compressors with new compressor oil & control of the drive belts in 2024. New fuel pre-filters in 2025. Latest drive service with repacking of the drives (new cones, gaskets, trim hoses, drive bellows & rudder indicator cables for the autopilot in 2023. New restoring of the propellers including polish & re-vulcanization of the propellers in 2025. New drive bellows in 2025. New complete battery bank with 7x85Ah Varta in 2023
