### Summary

Bavaria 33 Cruiser Owners version 2 cabin Deep Keel Built 2005 & commissioned 2006  
 The *Bavaria 33 Cruiser* is a thoughtfully engineered German-built cruising yacht from Bavaria Yachtbau, introduced in late 2005 as a modern successor to the much-loved Bavaria 32. Designed to combine **comfort, space and ease of sailing**, the Cruiser 33 delivers exceptional liveaboard comfort and manageable performance in a 10-metre package suitable for both family holidays and extended coastal cruising. Powered by a reliable Volvo-Penta saildrive diesel and equipped with a **fractional sloop rig**, this yacht balances straightforward handling with versatile performance — ideal for couples or small crews. The ergonomic deck layout places all lines and controls within easy reach of the helm, making short-handed sailing safe and enjoyable. Below deck, the interior is **bright, spacious and comfortable** for a boat of this size. Two well-appointed cabins, a cosy saloon, fully equipped galley and ample storage create a welcoming live-aboard environment. Large windows and generous headroom enhance light and ventilation, while the layout makes efficient use of every square metre. A broad swim platform and roomy cockpit provide excellent social space for relaxing at anchor or entertaining guests, and the overall design reflects Bavaria's commitment to combining **quality construction, practicality and cruising comfort**. Whether you're planning **coastal exploration, family cruising or weekend escapes**, the Bavaria 33 Cruiser stands out as a capable and comfortable sailboat that delivers good value, solid performance and an enjoyable sailing experience.

### Builders & Designers

Builders: Bavaria Yachtbau Germany.  
Designers: J&J Yacht designers.
