Beschreibung:

Wikiwiki – “The Fast One”: True to her name, Wikiwiki combines speed with Outremer’s hallmark balance of performance, comfort, and safety. Already proven in Atlantic and Pacific crossings, she’s ready for more with recent updates. As an Outremer 5X V2, Wikiwiki features top-tier upgrades: sporty reverse bows, a carbon mast, carbon bimini, Kevlar rigging, and a new Code Zero alongside a full sail suite for varied conditions. Despite her performance, she’s easily handled by a couple from protected helm stations, or from Formula One-style chairs with carbon tillers for an immersive experience. The owner’s layout dedicates the port hull to a spacious suite with a large bed, desk, and expansive shower. The starboard hull offers two guest cabins—convertible forward bunks or a queen, and a queen cabin aft. The ventilated salon and galley flow into the cockpit, creating a comfortable space for living, at anchor or underway. Equipped for sailing in autarky with solar, lithium batteries, genset, watermaker, and refrigeration, Wikiwiki is world-travel-ready with shore power adaptability (220V or 110V). Viewings by appointment; high-resolution photos and 360° virtual tour available on request.
