Beschreibung:

The Aikane 56 is an exceptional multihull, designed by the renowned VPLP studio and built by GC Marine Consulting in Trinidad. Combining high-performance sailing with luxurious comfort, she evolves from the acclaimed Switch 51. Her advanced build includes a carbon mast and boom, composite crossbeams, and foam sandwich hulls that provide speed, stability, and strength. The interior, designed by Couedel & Hugon and executed under Didier Ragot, offers spacious, elegant living areas and abundant equipment. Fully refitted, her electrical and electronic systems meet 2022 standards, including radar, AIS, dual autopilots, and high-capacity energy management. Ready for long-range cruising, she features a large galley and refrigeration, teak cockpit with carbon and wood tables, twin high-performance anchors with chain and 8-strand rope, updated rigging and sails, watermaker, and new fabrics and cushions inside and out. The Aikane 56 offers remarkable seakeeping, speed, and comfort - one of the best multihull opportunities on the market.
