Beskrivelse

The Excess 14 Pulse Line is the pure incarnation of the Excess DNA. She is the result of dedicated design work and industrial execution, unique to the brand. This Pulse Line version offers maximum performance with a raised mast, extended sail area and blue water preparation. She is a cruising yacht that is fun and playful, with sleek lines. A

renowned production catamaran offering exceptional comfort, space and the thrill of sailing. Designed for extended voyages and on-board living, this catamaran is made to explore remote destinations, from secluded coves to undiscovered waters. The Excess 14 Pulse Line takes the wisdom of its predecessors and achieves an impeccable balance, ensuring comfort without compromising the pleasure of cruising. The spacious interior is inspired by larger vessels, with a 2m x 2m bed in the master cabin and en suite bathrooms with separate showers. On deck, the inviting ambience of an open cockpit and twin helm stations provides a real sense of control and seamless interaction with the crew. She is soon closing the circumnavigation with the German owner couple aboard, crossing the southern Atlantic towards the Brazilian coast, to be handed over in the Caribbean after May 2026, ready to continue to conquer the oceans under new command.
