Boat history

The Broom is practically first-hand and is being offered for sale solely for health reasons

.
Due to the boat having been used very little over the past year, both engines and gearboxes require a fresh service.

This work, as well as a full technical inspection, is not included in the sale price of €17,900, which means that the Broom is being sold in its current condition, as is!

Viewings can be arranged practically at any time by prior arrangement, including at weekends; the mooring may be available for transfer!
