Beskrivning

Price: 280.000 EUR (VAT paid) Description: Are you looking for a modern premium hardtop with a closed cabin in the size 40 – 45 feet in price class 250.000 - 300.000 EUR? Don't miss this very nice Azimut 43S 2007 with Volvo Penta IPS-500 drivelines with joystick control plus bow thruster for easy maneuvering of the boat in port. This beautiful Italian premium hardtop with large express side window in the hull, large electric opening sunroof, large inviting aft deck and hydraulic lowering aft bathing platform has an impressive exterior finish that must be experienced! Even the nice interior in walnut veneer and the hard-wearing fabric upholstery on sofas as well as all floor mats are in very good condition! This Azimut 43S with low running hours, which has had the same owner for 10 years, is a very strong competitor to the English hardtop boats such as Princess V42 and V45 of later yearmodels. Compared to these

popular Princess hardtops, the Azimut 43S appears to be more affordable as, unlike the Princess V42 and V45, it has a closed cabin and hydraulic lowering bathing platform. In addition, a more modern hull with large express side windows and, of course, Volvo Penta's modern IPS drive lines instead of the usual drives that the Princess V42 and V45 has. Several nice pluses with the Azimut 43S are its wide side decks and large front deck with a large sun deck with comfortable sun cushions with raised headrests. The large aft deck which is well protected by the boat's deep canopy roof with recessed LED spot lighting plus an electric sun awning, offers a nice U-shaped sofa group with a folding table for 4 persons and in front of the table 2 folding chairs can be placed so you can sit 6 people at the table. The U-sofa can also be easily converted into a large sunbed during the warm sunny days of summer. The Aft deck also offer a storage and shelving furniture with an electric oven towards the salon. The floor plan inside the inviting salon with large modern side windows that let in lots of light, the big kitchen is directly adjacent to the salon. The comfortable sofas in the salon, where the large L-shaped sofa with extra seat can be converted into an extra double bed, offer seating for 8 persons and in the front of the boat's wheelhouse, from where you as the skipper have a very good view when you maneuver the boat, there is a large 2-seater captain's sofa and openable side window. Two steps down from the saloon is the boat's large, exclusive, well-equipped kitchen with worktop and inner wall in stainless steel and recessed LED spot lighting. The boat's spacious, pleasant guest cabin starboard midships has single beds and a large express side window, a wardrobe and its own entrance to the boat's guest bathroom with vacuum-flush toilet and separate shower cabin, which also has an entrance from the hall in front of the kitchen. In the bow is the boat's large, inviting Master cabin with a large double bed, large express side windows, double wardrobes and a private bathroom with a vacuum-flush toilet and a separate shower cubicle. In terms of equipment, this Azimut 43S also offers a nice newly overhauled aft canopy with new windows that close the entire aft deck of the boat, a powerful 9kW generator, air conditioning with double units with good cooling and heating in the boat's salon and cabins, defroster in the wheelhouse and hydraulic gangway with automatically folding railing in the stern, etc. The boat that can be viewed indoors in a boat storage hall in Malmö and is sold fully season-ready with guarantee that its powertrains and all the boat's significant systems are functional at the time of the boat's sale and delivery. We offer delivery of the boat throughout Europe. Ask us for a quote on transporting the boat to your home port. Maintenance: The boat is continuously maintained & winter stored fully winter preserved indoors in boat storage hall. New engine & drive service spring 2026. New polishing & waxing of the whole boat and replacement of worn zinc anodes to new ones spring 2026. New treatment of all teak decks spring 2026. Latest antifouling spring 2025. Zinc anodes and glycol in engines changed 2025. Generator service (change of oil & filter) autumn 2023. Engines charge air coolers, oil coolers & heat exchangers shared & cleaned in 2022. Drives repackaged with new propeller shafts & slat packs in 2017.
