Zubehör

Aufbereitungsanlage für Seewasser, Badeleiter, Cockpittisch, Davits, Deckdusche, Druckwasseranlage, Radio, Unterwasseranstrich, Waschmaschine

Beschreibung

The Swiss Cat 55 is a high-performance catamaran designed by renowned naval architect Francois Perus and Romain Scolari for fast bluewater cruising. Every element of its design focuses on balance, safety, and ease of handling, even in rough open-sea conditions. With its modern, elegant lines, the Swiss Cat 55 is built to deliver speed and comfort on long voyages. The carbon mast and sail plan including a self-tacking jib, genoa, and gennaker, ensure optimal efficiency and effortless maneuvering, making it perfect for couples or small crews. Daggerboards enhance

windward performance and minimize drag, while the weight distribution and use of carbon fibre in high-stress areas provide superior stability and performance. Inside. The Swiss Cat 55 offers a luxurious interior with fine wood finishes in light and spacy living areas below deck. Built by "Top Marine Construction" in Italy, known for its skilled craftsmanship, the Swiss Cat 55 combines cutting-edge materials and meticulous attention to detail. This exclusive Perus design proved being the perfect choice for sailors seeking a balance between speed, comfort, and luxury. Hull number 01 was launched in May 2024 and celebrated it's world premiere at the Cannes Yachting Festival in September 2024. The private Swiss owner decided to offer his dream-cat for sale because he retires from active sailing.
