Summary

Jeanneau Prestige 32 is a stylish and spacious flybridge motor cruiser offering an impressive combination of performance, comfort and practicality. Designed with generous accommodation for her size, she is equally suited to family cruising, extended weekends and entertaining with friends. Her well-proportioned interior, large flybridge and substantial cockpit provide excellent outdoor living space, while the twin diesel installation and shaft drive deliver confident cruising and good manoeuvrability. Coppertail has been maintained to the highest standards, annually serviced 2024 refit hull stripped of anti foul epoxy coated then copper coated new ball valves, shaft seals alternators replaced new sensors for both depth and speed and new axiom plotters, covers in excellent condition and comes with inflatable and 6 hp Tohatsu outboard with separate fuel tank Webasto warm air heating throughout, rear davit to assist outboard lift, invoices for work and purchases including build sheet and so much more definitely the best currently available. Viewing highly recommended.

Description

The Jeanneau Prestige 32 combines attractive styling with a practical cruising layout and impressive accommodation. Her spacious cockpit and flybridge provide excellent areas for entertaining, whilst the comfortable two-cabin interior makes her well suited to family cruising and longer weekends aboard. The twin diesel shaft-drive configuration provides dependable performance and manoeuvrability, complemented by the bow thruster for easier handling in confined waters. An excellent opportunity to acquire a well-equipped Prestige 32, offering the space, comfort and versatility normally associated with a considerably larger motor yacht. Coppertail has been maintained to the highest standards, annually serviced 2024 refit hull stripped of anti foul epoxy coated then copper coated new ball valves, shaft seals alternators replaced new sensors for both depth and speed and new axiom plotters, covers in excellent condition and comes with inflatable and 6 hp Tohatsu outboard with separate fuel tank Webasto warm air heating throughout, rear davit to assist outboard lift, invoices for work and purchases including build sheet and so much more definitely the best currently available. Viewing highly recommended.

Construction

The Jeanneau Prestige 32 is constructed using proven GRP (glass-reinforced plastic) construction techniques, combining strength, durability and ease of maintenance with the refined finish expected of the Prestige range. The planing hull is designed to provide a stable and comfortable ride at cruising speed, whilst offering good directional stability and predictable handling in a range of sea conditions. Her relatively deep beam provides useful internal volume and contributes to a spacious and practical accommodation layout.

Hull & Deck Construction: GRP moulded hull and deck
Hull type: Planing motor-cruiser hull
Hull finish: Gelcoat
Deck: GRP moulded deck with non-slip working surfaces
Superstructure: GRP moulded construction
Transom: Moulded GRP transom with bathing platform

The hull and deck are engineered to provide a rigid and durable structure, while the moulded deck incorporates practical side decks, secure handrails and generous exterior circulation around the vessel. Coppercoat antifouling applied 2023

Exterior Finish The Prestige 32 benefits from a clean, contemporary exterior profile with a substantial flybridge and well-proportioned superstructure. Stainless-steel rails and fittings provide additional security and durability, while the large cockpit and bathing platform create practical and attractive outdoor living areas.

Structural & Mechanical Arrangement The twin-engine installation is positioned aft within a dedicated machinery space, providing good access for routine servicing and maintenance. The shaft-drive configuration offers a robust and proven propulsion arrangement, with the engines coupled to conventional propeller shafts and rudders. The vessel incorporates dedicated machinery and systems spaces for the electrical, freshwater, fuel and domestic systems, allowing straightforward access for inspection and servicing.

Overall The Prestige 32's GRP construction, robust mechanical arrangement and practical deck layout make her a well-suited platform for coastal cruising and extended time aboard, whilst her planing hull provides the performance expected from a modern flybridge motor cruiser.

Mechanical

Engines & Propulsion The Jeanneau Prestige 32 is powered by twin Volvo Penta D4-260 260hp diesel engines, providing a strong and dependable propulsion package well suited to both coastal cruising and longer passages. The twin-engine configuration offers excellent manoeuvrability and provides useful redundancy, whilst the conventional shaft-drive arrangement delivers efficient and reliable power to the twin propellers.

Mechanical Engines: 2 x Volvo Penta D4-260 diesel
Power: 260 hp per engine
Total power: 520 hp
Propulsion: Twin shaft drive
Engine controls: Twin throttle/gear controls
Steering: Hydraulic steering system
Exhaust: Water-cooled marine exhaust system
Engine cooling: Closed-circuit cooling system
Engine hours: [492 Port and 485 Starboard]
Engine service history annually by the owner
new alternators and shaft seals recent replaced. Bow thruster with new battery 2018
Trim tabs Lenco trim tabs with Mente marine automatic adjustment (game changer)
Fuel capacity: Approx. 640 litres

The engine room provides access to the main mechanical systems for routine inspection and servicing, including the engines, shafting, batteries and associated equipment.

Electrical System The vessel is equipped with a comprehensive 12V DC domestic and engine electrical system, supported by shore power for use alongside.

12V domestic electrical system
Dedicated engine starting batteries
Domestic/service battery bank
Bow Thruster battery replaced 2018
Battery isolator switches
Automatic battery charging system
Shore power connection
240V AC shore-power system
AC distribution panel
DC electrical distribution panel
Navigation and anchor lights
LED Interior lights throughout.

The electrical system is arranged to provide reliable power for the vessel's navigation, domestic and hotel systems, with shore power allowing the domestic batteries to be maintained and onboard equipment to be operated whilst alongside.

Freshwater & Water Systems The Prestige 32 has a pressurised freshwater system supplying the galley, heads and accommodation.

Freshwater capacity: Approx. 250 litres
Pressurised freshwater system
Electric freshwater pump
Hot water is produced via the engine cooling system and/or onboard calorifier, providing hot water for domestic use whilst cruising and, where equipped, when connected to shore power.
Hot and cold water to galley
Hot and cold water to heads
Shower facility
Freshwater tank with deck filling point
Electric bilge pumps
Manual bilge pump

Fuel System The vessel's approximately 640-litre fuel capacity provides a useful cruising range and supports the twin diesel installation. The fuel system incorporates dedicated diesel tankage, fuel filters and engine-mounted filtration systems, with accessible shut-off arrangements for servicing and maintenance.

Sanitary System The heads compartment is served by a marine toilet and freshwater washbasin, with waste handled through the vessel's sanitary system.

Marine electric toilet
Washbasin
Hot and cold freshwater
Shower
Waste discharge system

Overall The twin Volvo Penta 260 hp installation gives the Prestige 32 an impressive 520 hp total output, combining strong performance with the reliability and manoeuvrability expected from a twin-engine shaft-drive cruiser.

Accommodation

The Prestige 32 offers a surprisingly spacious and comfortable accommodation layout for a 32-foot flybridge cruiser, making her well suited to family cruising and extended weekends aboard. Accessed from the main saloon, the accommodation is arranged with two separate cabins, providing comfortable sleeping accommodation for up to four guests.

Owner's Cabin The forward owner's cabin benefits from excellent natural light and ventilation, with a generous

double berth and useful storage surrounding the sleeping area. There is ample room for clothing and personal belongings, making the cabin practical for longer periods aboard. **Guest Cabin** The separate guest cabin is positioned aft and provides comfortable accommodation with twin berths, which can be used individually or as additional sleeping accommodation for family and guests. Storage is provided for personal effects. **Saloon** The bright and welcoming saloon forms the heart of the interior, with large windows providing excellent visibility and plenty of natural light. A comfortable seating area surrounds the dining table, creating an inviting space for meals and relaxing out of the weather. The saloon can also provide additional sleeping accommodation when required, making the boat particularly versatile for family cruising. **Galley** The galley is conveniently positioned adjacent to the saloon and is well arranged for preparing meals whilst underway or at anchor. It is equipped with a gas hob, refrigerator, sink with hot and cold pressurised water, Microwave, 220volt socket and useful storage cupboards. **Heads & Shower** The heads compartment is conveniently located for both owners and guests and incorporates a Jabsco electric flush toilet, washbasin and shower facilities. Hot and cold pressurized water is supplied throughout the accommodation. **Overall** The Prestige 32 provides a comfortable, light and practical interior, with two private cabins, a sociable saloon, well-equipped galley and dedicated heads compartment — making her an excellent choice for both weekend cruising and longer family trips. Recent upgraded Osculatti LED lighting, hand made fully sprung mattress (extremely comfortable), up graded LED lighting including adjustable reading lights, wool carpets two opening port lights an large glass overhead hatch, Jabsco electric flush toilet,
